BESCHRIJVING

KEF's patented Uni-Q driver array

Ci130.2CS in-wall speaker allows sound to disperse more evenly throughout the room. The extremely shallow mounting depth allows you to install the Ci130.2CS where other speakers in its class won't fit.

Ci130.2CS

Ci-C Series offers an ideal introduction to the world of custom installation speakers. Featuring KEF's sophisticated 'sit anywhere' Uni-Q driver array, which places the tweeter in the acoustic centre of the bass/midrange cone, this allows both the tweeter and woofer to act as a single point source that disperses the sound widely and evenly throughout the room.

Weather resistant treatment protects the speakers from moisture and UV light. Ultra-Thin Bezels that are barely visible at the edge of exceptionally flat grilles mean the C Series fits unobtrusively into your home.

SPECIFICATIES

Algemeen

Aantal luidsprekers in de doos	1 speaker
Type speaker	Inbouw

Audio

Frequentiebereik	52 - 20000 Hz
------------------	---------------

Fysieke kenmerken
