## BESCHRIJVING

KEF's patented Uni-Q driver array

Ci160.2CR in-ceiling speaker features allows sound to disperse more evenly throughout the room. The extremely shallow mounting depth allows you to install the Ci160.2CR where other speakers in its class won't fit.

Ci160.2CR

Ci-C Series offers an ideal introduction to the world of custom installation speakers. Featuring KEF's sophisticated 'sit anywhere' Uni-Q driver array, which places the tweeter in the acoustic centre of the bass/midrange cone, this allows both the tweeter and woofer to act as a single point source that disperses the sound widely and evenly throughout the room.

Weather resistant treatment protects the speakers from moisture and UV light. Ultra-Thin Bezels that are barely visible at the edge of exceptionally flat grilles mean the C Series fits unobtrusively into your home.

## SPECIFICATIES

**Algemeen**

Aantal luidsprekers in de doos	1 speaker
Type speaker	Inbouw

**Audio**

Frequentiebereik	52 - 20000 Hz
------------------	---------------
